WATER AND SEWER TAP FEES

The following are charges for water and sewer taps to be made on the lines of Dillon Valley District. It is anticipated that changes in these charges may be made from time to time, and any changes so made will be shown as a revision at the top of this page.

- 1) The water and sewer tap form is approved and a sample is attached.
- 2) Tap Fees:
- 3) All tap fees shall be based on the number of EQR's assigned the building. EQR's shall be assigned per the SILVERTHORNE/DILLON JOINT SEWER AUTHORITY EQR SCHEDULE.
 - a) Water tap: \$4,000 per EQR
 - b) Sewer tap: \$4,000 per EQR
- 4) Tap size:
 - a) Single family residence:
 - i) Water tap – ¾”
 - ii) Sewer tap – 4”
 - b) All other connections will be per engineering specifications and must have prior approval by Dillon Valley District.
- 5) All construction costs to install the water and sewer taps, service line extensions and connections at the building will be the customer's responsibility. The construction of said tap and lines will be to Dillon Valley District specifications as defined under “Dillon Valley District Water and Sewer Service Line Specifications”.
